

Pet Food Bank

The OMHS Pet Food Bank offers a reliable source of pet food and supplies to partner food banks and community agencies. These relationships allow us to work collaboratively towards food security for people and pets.

Keeping People and Pets Together

The OMHS Pet Food Bank delivers pre-packaged pet food and supplies to its partners on a scheduled basis so that their clients can pick up what they need, eliminating the need for long-term storage. We will adjust the amount delivered based on demand to ensure the need is being met.

Pet food and supplies are packaged in carry-size portions.

Stackable labeled bins make inventory management easy. We will pick up empty bins at the next delivery.
